

Capital MetroRail

WEEKDAY SCHEDULE ADJUSTMENTS

...
**PROPOSED
FOR JANUARY
2011**
...

CAPITAL METRO is proposing adjustments to the MetroRail schedule to enhance your service and accommodate growth. These proposals are based on customer feedback and operational recommendations.

THE KEY GOALS FOR THESE ADJUSTMENTS ARE:

- **Peak Direction:** Every peak trip (southbound in the morning, northbound in the afternoon) would serve all nine stations.
- **Reverse Commute:** Reverse trips (northbound in the morning, southbound in the afternoon) would serve all stations between Kramer and Downtown, with one trip in the morning and afternoon serving all stations.
- **Late Morning:** Additional service would allow later morning arrival (9:30 a.m.) to Downtown.
- **Trip Adjustments:** Due to low ridership, the 5:25 a.m. Leander departure would be eliminated. (MetroExpress route 987 would maintain its 5:20 a.m. Leander departure). To accommodate schedule changes that allow peak trips to serve all stations, the 6:10 p.m. Downtown departure would be eliminated. (MetroExpress route 987 would maintain its 6 p.m. Downtown departure.)
- **Midday:** Service would be provided to all stations between Lakeline and Downtown (Route 983 MetroExpress provides connectivity between Leander and Lakeline Stations).

If approved as part of Capital Metro's FY 2011 Budget on Friday, September 24th, new service would begin on Tuesday, January 18, 2011.

You may submit comments to:
